

Cutting Machine Plus

Product features

A high-quality and compact motorized cutting machine, known for its versatility and flexibility. It is designed for use with various types of fuel gases, including Acetylene, Oxygen, and Propane. The machine is easy to transport due to its low weight and offers reliable performance even under demanding conditions.

- **Versatile:** Can be used with various fuel gases (acetylene, oxygen and propane).
- **Stepless drive system:** Ensures constant cutting speed, even at high temperatures.
- **Low weight:** Only 9,5 kg, making it easy to carry.
- **Adjustable cutting head:** For precision cutting.
- **Stepless speed regulation:** Provides precise control over the cutting.
- **Accessories:** Straight rail and circle cutting device are available as options.

Technical data

Weight (Machine)	7kg
One burner + machine	9,5kg
Two burners + machine	13kg
Wheel distance	160mm
Operating voltage	230 VAC, ±10%
Reduction gear	Single cone system
Cutting speed	150-800mm/min
Cutting edge shape	I, V (45°)
Cutting thickness	5-30mm (by standard accessories)
Motor	1500rpm
Fuel gas	AC / Propane(LPG) / MAPP
